For Immediate Release

Hydro Dynamics, Inc Launches Custom QR Codes

Hydro Dynamics, Inc. (HDI) of Rome, Georgia (www.hydrodynamics.com) would like to announce that it has created two custom Quick Response (QR) codes. QR codes are becoming commonplace on everything from advertisements to business cards to brochures as an easy way for consumers to access a company's website without having to type or risk errantly entering a web address. HDI looks forward to using these new codes in multiple ways in the coming months.

About Hydro Dynamics

Hydro Dynamics is the developer of a patented process intensification technology enabling customers to solve critical mixing and heating problems. Reactors are operating on four continents in applications ranging from increasing biofuel production yields to more efficient mixing of chemical substrates. The ShockWave Power Reactor allows customers to significantly decrease operational and capital costs and increase profits while reducing the environmental impact of many processes.
