Cavitation in the Virtual World? Hydro Dynamics, Inc. Advertises its SPR in Second Life

Hydro Dynamics, Inc. (HDI) of Rome, Georgia (www.hydrodynamics.com) has completed a 30 day advertising run in [Second Life](#). Second Life is a free 3D virtual world where users can socialize, connect and create. Second life was launched in 2003 and claims about 1 million users. HDI had a giant “outdoor” billboard advertizing it’s [Cavitation Bubbles app](#) and also showing the ShockWave Power Reactor (SPR).

“We’re proud that our cavitation technology is used literally around the globe and are always seeking unique marketing efforts to reach customers in the diverse industries we serve”, said Doug Mancosky, VP of R&D for HDI. “With hundreds of companies having a presence in Second Life, it’s obvious creating awareness in the virtual world can have benefits in the real world.”

About Hydro Dynamics

Hydro Dynamics, Inc. is located in Rome, Georgia and is the developer and manufacturer of the cavitation based ShockWave Power Reactor (SPR). The SPR equipment uses the physical phenomenon of cavitation, normally known as destructive force, and harnesses it to solve critical industrial mixing, extraction and heating problems. The technology The SPR can now be found on four continents in applications ranging from biodiesel production to hops extraction for beer. Learn more at www.hydrodynamics.com.
