

# **Hydro Dynamics, Inc.**

Harnessing the Power of Cavitation

April 28, 2016

## **Hydro Dynamics Celebrates More Than 100 Years of Cavitation Expertise**

*HDI celebrated several employee anniversaries of 10 years or more. Combined HDI now has over 100 years of cavitation experience.*

Hydro Dynamic, Inc. (HDI) celebrated several employee anniversaries during a ceremony on April 22, 2016. Several employees with 10+ and 15+ years of service were recognized. Added together the HDI team can now claim over 100 years of cavitation experience. This experience pairs well with accomplishing HDI's mission statement:

*"To develop and implement cavitation technology across multiple industries, processes and nations allowing our customers to operate more efficiently and profitably. We will be globally recognized as the leader in cavitation technology with our ability to match cavitation solutions to customer needs."*

HDI is a world leader in cavitation expertise and utilizes its experience coupled with its ShockWave Power Reactor technology in numerous industries and applications. The combination of technology and knowledge allows HDI to solve complex problems allowing customers to save money while often running more efficiently with less environmental impact.

### **About Hydro Dynamics**

Hydro Dynamics, Inc. is located in Rome, Georgia and is the developer and manufacturer of the cavitation based ShockWave Power™ Reactor (SPR™). The SPR™ equipment uses the physical phenomenon of cavitation, normally known as destructive force, and harnesses it to solve critical industrial mixing, extraction and heating problems. The SPR™ can now be found on four continents in applications ranging from biodiesel production to hops extraction for beer. Learn more at: [www.hydrodynamics.com](http://www.hydrodynamics.com).
